*Technology is our tool.
Security is our goal.
People are our value.*

IT/OT CYBERSECURITY AND CYBER RANGE

WE PROTECT WHAT MATTERS

STORMSHIELD

AIRBUS GROUP

We are certified in Stormshield's cybersecurity solutions (Airbus Group), a global leader in the protection of corporate networks (IT) and industrial networks (OT / SCADA). We integrate Stormshield firewalls, UTM and advanced security solutions, designed to protect your critical infrastructure.

- Next-generation firewalls (NGFW)
- Protection of IT and OT networks
- Industrial protocols (SCADA / ICS)
- Advanced Threat Prevention
- Cyber Range and attack simulation
- Centralized management and monitoring
- Compliance with the NIS 2 directive

PREDICTIVE VIDEO SURVEILLANCE

MORE SECURITY, FEWER FALSE ALARMS

We implement advanced video security systems using CBC Ganz AI Box, which leverage Artificial Intelligence for real-time video analysis and the total reduction of false alarms.

- AI-based video analytics
- Real-time event detection
- Dramatic reduction of false alarms
- Scalable solutions for any environment
- Integration with existing systems
- Greater safety for people and assets

MOBILITY CONNECTIVITY

ALWAYS CONNECTED, ANYWHERE

THE FREEDOM
TO STAY
ALWAYS
ONLINE

We provide advanced multi-line routers capable of aggregating multiple networks simultaneously, ensuring ultra-fast and uninterrupted internet connectivity on board vehicles and in high-mobility scenarios.

- Aggregation of multiple networks (4G/5G, Wi-Fi, satellite)
- Stable and high-performance connections
- Ideal for vehicles, special vehicles and mobile units
- Customized solutions for every need
- Centralized management and remote monitoring
- Operational continuity in every situation
